## The ORGANIC WINE REFERENCE

In 1983, Jacques FRELIN embarked on an adventure of organic wine with the conviction that a wine (especially organic) should be naturally good. The outcome was that he founded one of the first organic wine trade companies under the name **Jacques Frelin Vignobles**. A few years later, the company was renamed **Terroirs Vivants**.

Due to excellent price-quality ratios on varietal wines, with the leading brands **La Marouette** and **Reserve Naturelle**, Terroirs Vivants won the heart of consumers.

35 years after his company creation, Jacques Frelin achieved sales revenues of 6.2M€ for 3.4M bottles.
