## « à fleur de peau »

### Vin orange de macération de muscat

- HEAVILY ROCKY LIMESTONE SOIL
- HAND PICKED IN 15 KG CRATES
- VIN BIO
- 2 WEEK MACERATION MUSCAT PETITS GRAINS
- YIELD : 25 HL/HA,
- PRODUCTION : 1000 BT 75 CL
- ALTITUDE : 270 M

For several years, we've been wanting to try something different with our beautiful muscat grapes. John tasted Georgian, Italian and Slovenian orange wines in London last year and thought that they might be even more interesting made from an aromatic grape like muscat.

Vintage 2015 was bountiful; we made FIVE different muscats (including this orange and a Petnat). In 2016, we only produced three wines from our little hectare...Orange, Petnat and our usual sweet AOC Muscat de St Jean de Minervois.

Our Orange is a 2 week maceration, stemmed and worked daily like a red (pushdowns, pumpovers...) A Fleur de Peau, a French expression indicating someone *wearing emotions on their sleeve*...try it and find out if you are that person !

A FLEUR DE PEAU...THE ONLY ORANGE ONE YOU WILL LOVE TO WORRY ABOUT !
