

FITZPATRICK WINERY

Sierra Dreams Blush

This Blush wine is made by one of the few California wineries producing wines from certified organic grapes. Fitzpatrick Winery's vineyard and vegetable garden are certified organic by the California Certified Organic Farmers, of which Brian Fitzpatrick is an active member. Brian makes wines from his own grapes and those of Sierra Foothills neighbors who also grow organically. Sunny days without coastal fog and cool evening breezes from the Sierra Nevada Range bring these vineyards fully ripened grapes with a high natural acidity.

The grapes used in Sierra Dreams are 100% Sierra Foothills Zinfandel. Free run juice is quickly separated from the skins to make a lightly colored wine with maximum fruit flavors. It is well balanced with acidity and sugar. The result is an off dry, spicy and berry like wine that is a great summer sipper and a fine wine for any light meal.
