

GUY CHAUMONT BOURGOGNE CHARDONNAY

Why it's important:

You can offer your customers a true White Burgundy that tastes fantastic, is reasonably priced, and is *certified* as made with organically grown grapes.

Long-established organic vineyards produce healthier, better-tasting grapes

- Newer organic vineyards don't produce the quality or consistency of older ones
- From the Cote Chalonnaise region in the heart of Burgundy
- Vineyards converted to organic growing in 1965
- Grapes are fertilized and protected from pests naturally – no synthetics
- No additives; unfiltered for maximum flavor; only a trace of sulfites

Grapes: 100% Chardonnay

Region of origin: Cote Chalonnaise, Burgundy, FR

Taste: Rich buttery apple & melon fruit w/mineral undertones and a long finish

Pairing: Roast chicken, shellfish, fruit & cheese
