

GUY CHAUMONT

BOURGOGNE PINOT NOIR

Why it's important:

You can offer your customers a true red Burgundy that tastes fantastic, is reasonably priced, and is *certified* as made with organically grown grapes.

Long-established organic vineyards produce healthier, better-tasting grapes

- Newer organic vineyards don't produce the quality or consistency of older ones
- From the Cote Chalonnaise region in the heart of Burgundy
- Vineyards converted to organic growing in 1965
- Grapes are fertilized and protected from pests naturally – no synthetics
- No additives; unfiltered for maximum flavor; only a trace of sulfites

Grapes: 100% Pinot Noir

Region of origin: Cote Chalonnaise, Burgundy, FR

Taste: Rich berry and cherry flavors lead to an earthy, slightly smoky finish

Pairing: Roast chicken, grilled salmon, beef and pork dishes
