

JACQUES FRELIN
L'ÉMOTION AUTHENTIQUE

SETTING THE STANDARD FOR ORGANIC WINES OVER 35 YEARS

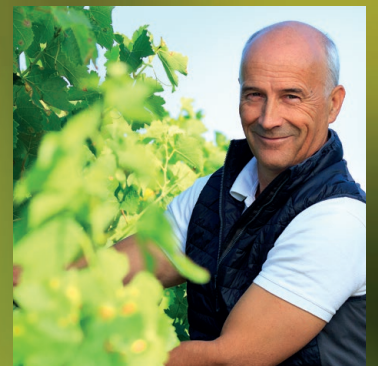

La Marouette is a small long-legged migratory bird present near the Mediterranean shores of Southern France. Its name comes from the Provençal word "marouetto", meaning "marionette".

«To participate in an ecological transition is our mission and what we practice in the vineyards each day. We work to make organic viticulture the standard of tomorrow.

La Marouette is the messenger of our work, taking its place on family and restaurant tables for 35 years.»
